Subject: Letter of Recommendation for SchoolLockers.com

To Whom It May Concern:

With this letter I would like to recognize the great service we received from SchoolLockers.com and recommend them for future work.

SchoolLockers.com provided the materials and labor to install 220 (ea) personal lockers in our new Operations Change Facility. Working with The Sales Staff, the materials were specified per our operators' preferences and delivered on time as promised. The installation crew worked with our project schedule to get the lockers installed to meet the project deadline. It was pleasant working with the crew, and the foreman, was quite accommodating to changes in the construction schedule.

Again, thank you SchoolLockers.com for a successful job.

Sincerely,

Phong D. Nguyen,

Project Engineer
