Continued Assembly

- Slightly bolt the top panel, hat shelf, legs and bottom panel inside the side and back panel.

Note:

Top and bottom panels have two (2) round, pre-drilled holes that can be found on the back flange and are designed to bolt to the back panel.

Hat shelf contains oblong holes on the side of the flanges.

Assemble the hat shelf with the panel's bottom lips facing the front opening of the locker. .

Legs are now ready to be bolted. Place locker in an upright position, legs might require some adjusting in order to level the locker against the wall and floor.

Insert Front Door Frame

- Place locker in the upright position and make sure locker is level, making any necessary adjustments with locker legs.
- When locker is level, test the door to determine it opens properly. Bolts can be adjusted if there are any problems with opening and closing.
- Once the door is functioning correctly, tighten all bolts.
- To instill proper safety measures, we highly advise anchoring the locker to the floor or wall to avoid injury or theft.
